

**Subject: Introduction of mandatory time-bound sections in MCQ based examinations-reg.**

1. DFSL has decided to introduce mandatory time-bound sections in all its MCQ-based examinations which are conducted on a computer-based platform. This measure has been implemented to enhance the security and sanctity of the exams in light of emerging threats during the examination process.
2. The question paper in these examinations will be divided into multiple time bound groups. For example, in DFSL Exam, if there are two time-bound sections (A & B) in the question paper, each section will have 50 questions and 45 minutes of time allotted. Candidates will be restricted from proceeding to the next section until they complete the allotted time for the previous section. Additionally, candidates will not be allowed to review the questions or modify their responses for a group after the completion of its allotted time. The questions for the next section will start automatically after the completion of the allotted time for the previous section.
3. Candidates are given the option to mark any question, whether attempted or not, for review. This means that candidates can go through these marked questions in a section again before the allotted time for that section ends. It is important to note that questions marked for review will be evaluated.
